SERVICES/DESCRIPTION

◆ Uninterruptible services:

Providing of gas transmission firm capacity contractually guaranteed by Bulgartransgaz EAD as uninterruptible according to the conditions stipulated in the transportation contract.

◆ Interruptible services:

Providing of gas transmission capacity that can be interrupted by the transmission system operator. The mode and conditions for limitation/interruption shall be according to the transportation contract. In case of congestion, the operator shall limit/interrupt first interruptible capacity services following notification to the customer on such limitation or interruption.

◆ Long-term services:

Services with a duration of one year or more based on transportation contract with a duration of not less than one year or any duration that is a multiple of one year.

◆ Short-term services:

Services based on monthly/daily contracts with a duration of less than one year.

- ***Monthly contract*** – it shall be signed with a duration of not less than one month or any duration that is a multiple of one month, however of not more than 11 months. The contract shall be signed with date of entry into force as of the first gas day of the calendar month according to the time schedule for gas transmission thereunder and ends with the expiry of the last gas day of the last month of its term of validity.

- ***Daily contract*** – contract signed with a duration of not less than one day or any duration that is a multiple of one day, however of not more than 30 gas days. The contract shall be signed with date of entry into force as of the first gas day according to the time schedule for gas transmission thereunder and ends with the expiry of the last gas day of its term of validity.
